

The Problem:

- 4 out of 10 residential fires start in the kitchen
- Cooking is the leading cause of home fires
- Unattended cooking is the leading cause of cooking fires

Source: NFPA, 2006

The Solution...

INSURANCE SAVINGS

STOVETOPFIRESTOP.COM

**America's leading
automatic residential
stovetop fire suppressor**

Designed and Manufactured by Williams-Pyro, Inc., Fort Worth, TX
® and © 2008. Williams-Pyro, Inc. All rights reserved.

StoveTop FireStop has been effectively putting out small grease fires for over 30 years.

- Automatic 24-7 stove top fire protection
- Flame activated – no false alarms
- Non-pressurized, non-toxic fire-suppressing powder is sifted onto the pan to smother the fire
- Installation is quick and easy
- 2 units cover a 4-burner stove
- Replace after 5 years
- Maintenance-free – no inspection or batteries required
- Inexpensive – around \$1 per month
- Supplement to sprinkler systems

POPTOP

PopTop FireStop's easy pull-tab top allows users to manually pour our proven fire-suppressing powder onto a fire. Ideal for stove top use, but also the perfect size to pack for camping or road-trips.

VENTHOOD

For traditional vent hoods

The original, best-selling product for cooktops with traditional vent hoods.

Attaches by magnet to the underside of the vent hood, 24-32" above the cooking surface.

MICROHOOD

Ideal for micro vent hoods

StoveTop FireStop Microhood expands on our trusted design to deliver fire-suppressing powder to stovetops with lower clearance.

This product is ideal for over-the-range microwaves or cabinet hoods 15-24" above the cooking surface.
